

DP WORLD

London Gateway Park Services

An end-to-end management service
for your import and export shipments.

Park Services at a Glance

Customers at our DP World London Gateway and Southampton ports benefit from integrated, port-adjacent services. These unique solutions ensure seamless vessel-to-destination transit without extra charges, keeping global trade flowing efficiently.

New External Haulage Services

Providing complete tracking for your cargo from vessel arrival to its final destination.

Internal Transport Management

Offering bespoke transport and yard management solutions within the London Gateway estate.

Fast Track Cargo Access

Offering customers a quick solution to meet critical delivery requirements for priority cargo.

Virtual Off-Dock Services

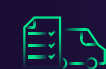

Highly flexible storage solution designed to enable greater supply chain resilience.

Did you know that our broad range of Port Adjacent Services at London Gateway includes external haulage?

As your goods flow through London Gateway port, we understand it will be important that they move seamlessly, avoid additional charges and meet your schedule. By directly working with our logistics experts, we're able to help manage your shipments as they move inland, making it easier for you to track your goods from vessel arrival and access additional services available including customs, fast track inspections and storage options.

With access to a range of fleets, we're able to offer our customers multiple haulage solutions to meet your requirements including same day and renewable fuel. Please let our team know your needs when you enquire, and we'll be able to show you a range of options.

Meeting your critical supply chain needs.

Our market-leading premium services provides customers the ability to prioritise cargo for inspection allowing for prompt clearance and open collection slots for haulage. With Fast Track VBS capability, which enables a collection time to suit customers - streamlining the movement of cargo and helping you to get your priority goods to their final destination as planned, safe in the knowledge that cargo will be processed and ready for collection on a pre-agreed date. With our premium inspection and/ or VBS we are adding new layers of supply chain optimisation, offering customers a solution to meet critical delivery requirements for priority cargo.

Early Clearance

Planned inspections enabling early authority clearance.

Premium Inspection

Combine Premium Inspection and VBS Booking Slots.

VBS Booking

Uncapped VBS booking slots allowing customers 'fit to suit' purpose over 24-hour period.

Dedicated Team

Dedicated, friendly Team providing knowledge, visibility and transparency.

Daily Limit

A daily limit to ensure day-to-day inspections within the Terminal are undertaken.

Same Day Inspection

Same Day Collection

Three Quick and Simple Steps

1

Contact our dedicated team, ideally prior to arrival, to request your required date of inspection and/or collection.

2

Your container is selected, presented for inspection and transferred to a dedicated fast track area with an open 24-hour VBS capability.

3

You can secure end delivery slots in advance, comfortable in the knowledge collection can be achieved as scheduled.

Solutions to meet your specific needs.

We understand that container haulage and storage plays a crucial role when moving containers quayside to inland activity. Our unique Virtual Off-Dock storage service can alleviate the additional costs sometimes experienced on quayside. Our expert port adjacent service team, prioritises efficiency and customer satisfaction. We work with customers to create a customised solution to meet your specific operational needs and we have the flexibility to handle unforeseen spikes in cargo volume. By storing containers in our Virtual Off-Dock facility we reduce the total miles moved by container, while avoiding additional demurrage costs.

Traditional Method of Storing Goods Off-Dock

New Virtual Off-Dock Approach

By accessing our Virtual Off-Dock services, total container miles and touch points are reduced while avoiding unnecessary additional costs.

What Benefits Can Virtual Off-Dock Provide?

Flexibility

You can store per container per day.

Security

AEO and ISPS approved, 24-hour security.

Visibility

Regular reporting at the request of the customer.

Cost Reductions

Containers managed within free time so additional charges are not incurred and maximise efficiencies for cargo owner.

LONDON GATEWAY PARK SERVICES

Virtual Off-Dock Services

Flexible storage solution enabling supply chain resilience.

Case Study

Total cost savings £150k

A large UK retailer required additional storage support for 220 containers within the 'Christmas Rush' period. Our port adjacent services team were able to quickly onboard the operations team, providing relevant training and access to weekly reporting. All containers were moved to the Virtual Off-Dock zone on the last free day, avoiding any large quay rent bills.
